2016 Haitian Entrants Support

Cal OES State Operations Center (SOC) is partially activated in support of this event.

Haitian Entrants, San Ysidro, San Diego County

- Following the tragic earthquake of January 2010 in Haiti, U.S. Immigration and Customs Enforcement temporarily ceased removing Haitian nationals to Haiti. On September 21, 2016, Secretary Johnson from the U.S. Department of Homeland Security directed that enforcement decisions with respect to Haitian nationals return to the consistent standard practice guided by memorandum dated November 20, 2014 “Policies for the Apprehension, Detention and Removal of Undocumented Immigrants” consistent with the practice for nationals from other nations. Haitian nationals currently covered by Temporary Protected Status in the United States are unaffected by this change in policy.
- There are currently three shelters open for Haitian Entrants: Christ Ministry Center, National City Armory, and El Cajon Armory. The overnight populations for 9/22/16 were as follows:
 - Christ Ministry Center – 63 persons
 - National City Armory – 70 persons
 - El Cajon Armory – 55 persons

Non Governmental Organizations

- Alliance San Diego and Christ Ministry Center United Methodist Church continue to operate the two temporary shelters established at the CNG Armories and also the Christ Ministry Center.
- Per Cal Volunteers, Catholic Charities has enough funding to pay for airline tickets for all those needing monetary assistance for transportation. Those who have the means to pay for their airlines ticket will continue to do so. Catholic Charities will be on site on 09/23/16 to provide a payment method. CA AmeriCorps Disaster Team will assist shelter occupants to book flights to depart the shelter by Monday if possible.
- Per Cal Volunteers, Catholic Charities will collaborate with management and volunteers at the National City site on 9/23/16 to identify reasons residents are unable to travel to final destination and to implement process for enabling them to do so.
- The American Red Cross (ARC) is continuing to work with the Alliance San Diego and Christ Ministry Center United Methodist Church to provide unbranded cots, blankets, hygiene kits, dormitory management expertise, technical assistance and training to church personnel in managing shelters.

2016 Haitian Entrants Support

State agencies currently supporting the sheltering operations are as follows:

- California Department of Social Services (CDSS):
 - The California Department of Social Services (CDSS) is coordinating with U.S. Department of Health and Human Services, Administration for Children and Families and Office of Refugee Resettlement (ORR).
 - CDSS issued a one-time augmentation of \$1.3 million of Refugee Social Services (RSS) funding provided by ORR and can be used for transitional housing assistance and transportation. Of the \$1.3 million:
 - \$334,224 to San Diego County Health and Human Services Agency
 - \$128,764 to and Catholic Charities/Wilson Fish
 - CDSS Disaster Services Bureau (DSB) reached out to its feeding partners (Southern Baptist Disaster Relief, The Salvation Army, food banks, etc.) to find out if they have the resources/capacity to handle feeding operations or provide food to the shelters.
 - DSB is working with our Emergency Food Assistance Program (EFAP) to research commodities programs.
- Cal Volunteers:
 - Received food delivery from the local church network and will have enough food for breakfast and lunch for the next 2 days (9/23/16-9/24/16). Christ Ministry Church continues to provide a hot dinner each day.
 - The LDS Church is delivering a food shipment to Chris Ministry Church on 09/23/16 to help provide breakfast and lunch for shelter occupants with a potential for additional food shipments dependent on need.
 - Cal Volunteers has one staff member at the National City Armory and one at the El Cajon Armory. Cal Volunteers has also activated 11 California AmeriCorps Disaster Team members to assist in sheltering operations.
- California Department of Public Health (CDPH):
 - The California Department of Public Health (CDPH) is coordinating with U.S. Department of Health and Human Services, Office of Refugee Resettlement, Office of Refugee Health, and local public health.
- California Department of Food and Agriculture (CDFA):
 - Continuing to monitor the situation.
- California National Guard (CNG):
 - The California National Guard (CNG) is mission tasked to stand up two Armories for shelter.
- The San Diego Operational Area is monitoring the situation. They have sent county eligibility teams (for Cal Fresh and Medi-Cal) to all three (3) shelter sites on Wednesday, 09/21/16.
- The Imperial Operational Area is monitoring the situation in the Calexico Point of Entry and is currently not significantly impacted.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 3	Preparedness Level 3

WEATHER OF CONCERN

Weather of Concern

- Several Fire Weather Watches and Red Flag Warnings are in place for portions of Northern and Southern California through 09/26/16.
- A full list of the affected counties can be viewed by clicking the below link.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

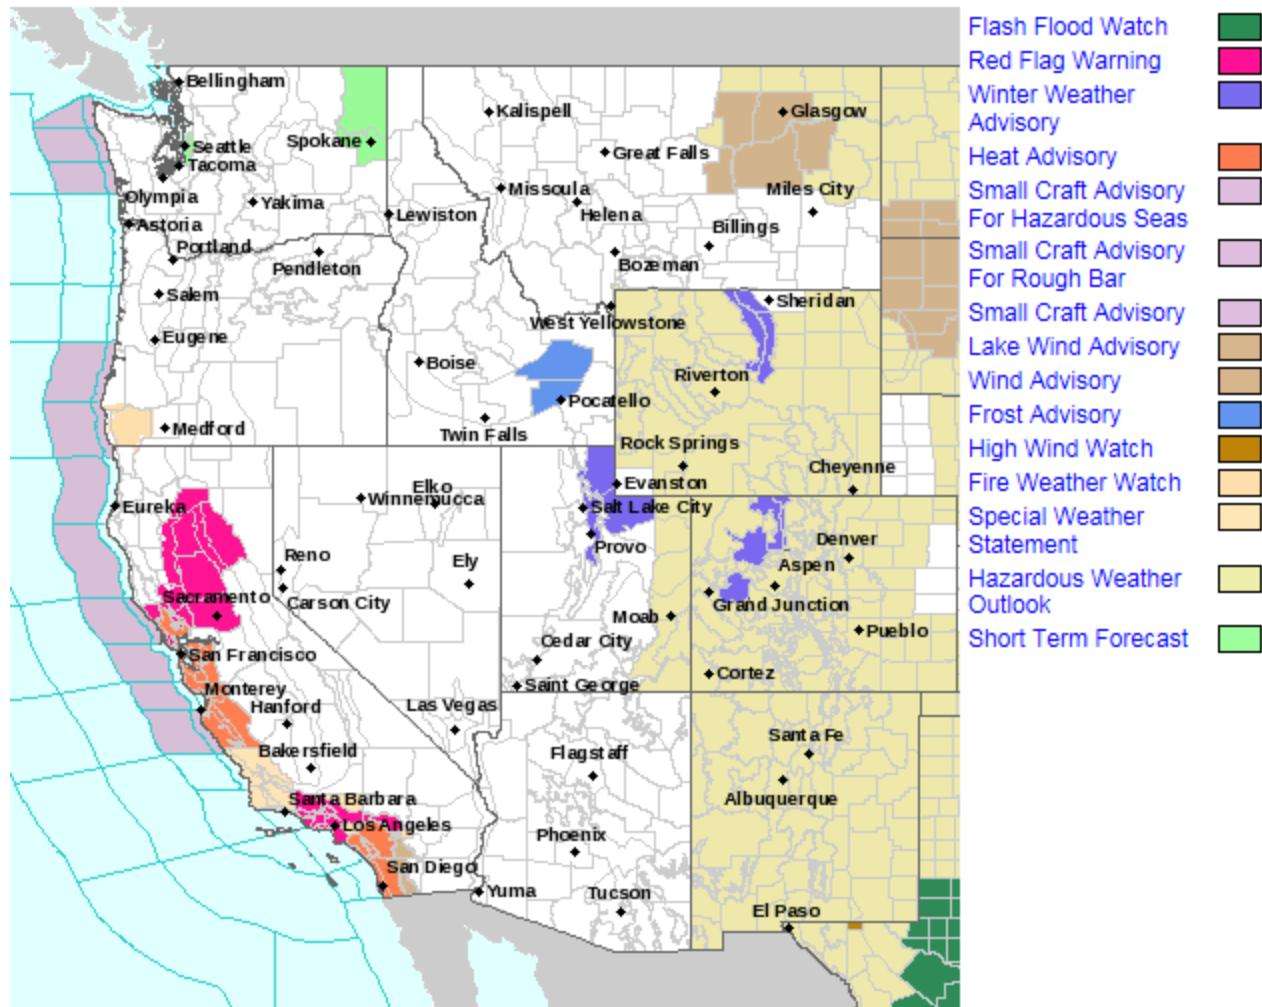

North/ Northeast offshore surface winds through Tuesday, strongest over the weekend. Rapid temperature rise and overall low relative humidity (RH) expected over the weekend. The weather system affecting Northern California the past few days has moved east into the Great Basin. A weakening frontal system will move ashore in our far NW areas and may bring some light rain to the coast north of Cape Mendocino in particular and possibly further inland near the Oregon border before dissipating late today. High pressure will quickly strengthen over the Northern California region tonight and decisively dominate the weather pattern through Monday before weakening. Afternoon high temperatures will return to right around 100 for the warmest inland areas Sunday and Monday. Many areas will have highs around 10 degrees above normal, even near the coast. Northerly winds will develop tonight, but RH recovery should be at least moderate in most areas. Stronger N to NE winds are expected to develop later Saturday, become NE to E Saturday night and linger through Sunday night. Areas of poor RH recovery and low daytime RH will likely accompany these winds. Peak daytime wind gusts around 25 mph and overnight gusts up to around 30 are expected this weekend in the windiest areas, especially west of the Cascade/Sierra crest. Low RH's 10-15% in the windy areas are probable, with overnight recovery only 20-25% overnight Sunday in the windy areas looking quite likely. Even the coastal areas are likely to see low RH over the weekend into Monday under this wind pattern. The high will weaken substantially Tuesday as a trough approaches the region from off shore. A stronger trough will drop south out of the Gulf Alaska along the BC coast the latter half of next week to bring a cooling trend to Northern California. Winds will become more westerly again and RH values will increase overall.

SOUTHERN CALIFORNIA

Strong offshore winds across Southern California tonight through Monday afternoon. Hot and very dry Sunday and Monday. Strong high pressure aloft off the California Coast will bring significant warming to the region through Monday. Maximum temperatures will be in the 70s to low 80s across the mountains and mid 80s to mid 90s in the valleys today. Temperatures will warm to the mid 70s to mid 80s across the mountains and mid 90s to 105 in the valleys Sunday and Monday. Minimum humidity will be mainly between 12% and 25% today and then drop into the single digits and teens Sunday and Monday. Surface high pressure currently over Oregon will bring local northerly winds of 10 to 20 mph with gusts to 35 mph to the Central Coast, Santa Barbara County, mountains of Ventura and Los Angeles Counties, and the Owens Valley through this afternoon. The surface high will shift into the Great Basin tonight and strengthen bringing northeast to east winds of 20 to 40 mph with gusts to 60 mph to the mountains and below the canyons and passes of Southern California through Monday afternoon. These offshore winds will weaken substantially Monday night, but there will still be some gusty winds across Southern California through Tuesday afternoon. A weak area of low pressure will move over Southern California from Baja bringing cooling and an increase in humidity to the region Tuesday and Wednesday. Isolated showers and thunderstorms will be possible south and east of Los Angeles County Tuesday and Wednesday. There will be further cooling late next week as a Pacific trough drops down the West Coast. This trough will also bring gusty westerly winds to the mountain ridges and desert passes late next week.

WEATHER MAP

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Current CAL OES Proclamations

Soberanes, Vegetation Fire, Monterey County

- On 07/26/16, Acting Governor Tom Torlakson issued emergency proclamations for Monterey County due to the effects of the Soberanes Fire.
- On 07/24/16, Monterey County proclaimed a local State of Emergency.
- On 08/04/16, Monterey County requested assistance through CDAA and a Federal Declaration in order to request federal assistance through the Stafford Act.
- On 08/31/16, a signed revised extended Proclamation was received from Monterey County which includes both the Soberanes and Chimney Fires. There are no requests for state assistance.
